EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with December 2004 on Mark Buscher.

The application has been amended as follows:

In claim 14, line 1, please delete the phrase "or preventing".

The claim should be amended as follows:

14. A method for treating angina, hypertension, or heart failure, which comprises administering to a patient in need thereof an effective amount of the composition according to claim 1.

In claim 16, line 1, please add "of making a solid dosage form of amlodipine maleate" before the word "which".

The claim should be amended as follows:

16. A process of making a solid dosage form of amlodipine maleate, which comprises mixing amlodipine maleate and at least one pharmaceutically acceptable excipient to form a mixture having a pH of 5.5-6.8.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art does not sufficiently disclose or suggest adjusting the pH to a range of 5.5 to 6.8 of a *solid pharmaceutical composition* containing amlodipine maleate. The Rule 132 Declaration of September 5, 2003 demonstrates that the claimed pH range provides stability to the composition, wherein the formation of impurities, such as amlodipine aspartate, are reduced compared to compositions outside the claimed range.

It is noted by the examiner that a possible *provisional* double patenting rejection exists between instant application and co-pending application amended claims 10/431539. However, since the application is in condition for allowance and the provisional double patenting rejection is the only remaining rejection, the provisional rejection will not be made in instant application since it will be made in the co-pending application of 10/431539, as in accordance to MPEP 822.01.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sharmila S. Gollamudi whose telephone number is 571-272-0614. The examiner can normally be reached on M-F (8:00-5:30), alternate Fridays off.
